

Objective:

Working in a dynamic high-tech environment that will make the best use of my computer hardware, software, repair and data networking skills

Education:

Wells Fargo Online Training Duluth, MN
Field Support EV-ID - IT Administration Certification Aug 2016 - Oct 2016

Workstation break-fix repair requirement for Teksetra in a subcontracting field tech position

Northwood Technical College Superior, WI
Computer Network Information Systems Jan 2001 – Jan 2002

Focusing on Windows 2000 Server, Linux, Apache Web Server For Linux, Cisco Routers, Network Cabling, Computer Hardware & Software Installation

Sales & Management Training, Inc. Duluth, MN
Nov 1996

Training included: Adapting to Change; Building Trust; Correcting and Counseling; Understanding Human Motivation; Recognition as a Leadership Role; Other Leadership; Attrition Management and Personal Development Subjects.

Army Power Generator School Ft. Belvoir, VA
Gas and Diesel Power Generation Equipment Repair Nov 1992 – Feb 1993
Course for Minnesota Army National Guard

Experience:

Granite Telecommunications www.granitenet.com **Mar 2019 – Current**
Quincy, MA

Engaged in CAT5e/CAT6a wired and wireless networking installs for commercial and government businesses. Installed and De-Installed LAN/WAN Equipment on network switch racks. Built medium and small network cabinets with related equipment placed into them. Troubleshot network connection issues whether they are T1, DSL, Cable, Fiber, Starlink and or, Cellular Circuits and repaired them with remote tech support assistance. Performed Site Network Surveys for future data network, voip and phone cabling projects. Worked with POTS (Plain Old Telephone System) installs, repairs and troubleshooting them from a standard inside/outside phone line or, a PBX System for commercial and residential customers.

CPT Network Solutions, Inc
Bensenville, IL

www.cptnetworks.com

Feb 2016 – Dec 2024

Network installations and upgrades of CAT5e/CAT6a wired and wireless networks with shared services for commercial customers. Clearing out wall and cabinet network cabinets of old and unused equipment to include dust removal for new data equipment installs. Also, engaged in POTS (Plain Old Telephone Systems) installs and troubleshooting them from a standard inside/outside phone line or a PBX System. Installation and removal of PBX and VOIP phone systems. To include performing HP, NCR and IBM Cash Register installations, replacements and repairs.

Teksetra
Plymouth, MN

teksetra.com

Jan 2012 – Dec 2025

Performing bank workstation computer repairs and system installs. Removed computer viruses and restored user data via data restore software in Windows. Brought back computers to a working status from a No-Boot Status via an operating system restore application or, a full system reinstall. Successfully installed and repaired HP and Lexmark printers and other related peripherals for bank customers. Performed Bank Site Surveys for new workstation and network equipment upgrade install projects.

WHY NOT TECHNICAL SOLUTIONS, INC (WNTS)
Fresh Meadows, NY

Oct 2019 – Sep 2021

Setting up networks with wireless and LAN CAT5e/CAT6a wired data drops with shared services for commercial customers. Installation and setup of POTS (Plain Old Telephone System) lines with troubleshooting and or, connecting to a PBX / VOIP Phone Service. Cleaning out network racks & cabinets of old and unused data equipment to include, dust removal too.

DataMax Services, Inc
Northbrook, IL

datamax.com

May 2018 – Jun 2022

Payment Kiosk Machine installs, inspections, upgrades, troubleshooting and repairs. Remote tech-support is also utilized during these work orders to ensure quality network communication and functionality of the unit. Successfully installed and inspected a Keefe Kiosk at the Ashland County, WI Sheriff's Department in August 2018.

Self Employed
Duluth, MN

PC-REPAIR-TECH.ddns.net
"Field Service Computer Tech"

Jan 2003 – Current

Performed commercial and residential computer workstation repairs, upgrades and other system installs. Removed computer viruses and restored user data via data restore software tools in Windows and Linux. Brought back computer workstations to a working status from a No-Boot Status via an operating system restore application and or, a full system reload / reinstall with included data restoration. Successfully installed printers and other peripherals for commercial and residential customers. Installed, repaired and upgraded data networks & POTS (Plain Old Telephone Systems) with line issues stemming from the customer's DMARC (main communication lines entry) area to their end points. Worked with ISP Tech Support Reps in resolving commercial and residential customer computer, data network, and phone related issues. Successfully patch line extended T1, DSL, Cable, Fiber and or Cellular Circuits to router devices on switch racks for LAN and WAN using services. Mounted, replaced and upgraded network devices in a wall or floor cabinet rack per customer needs. Engaged in Site Network Surveys for future network and phone cabling projects. Also successfully performed ATM Cash Machine installs, upgrades, troubleshooting, repairs and removals. Plus also, working with their Tech Support Reps during these projects to ensure quality functional network communication and operation processes.

I put this together for Hanger Prosthetics & Orthotics office in Hibbing, MN during July 2011. Their office required 100 ports, 24-port Adfium switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch, 24-port Cisco Catalyst 3500 switch.

Custom Computer Builds

I can build new computers with new, used or both parts. You decide the software you want installed and purpose of the computer. I keep my parts and labor costs low by knowing the computers exact use.

Custom Laptops

You decide the software to install and the laptop's use. I work with you to assist in getting the right laptop for your needs.

Custom Networks

The same applies for these just like Custom Laptops.

Sheraton Duluth Hotel
Duluth, MN
April 2010

Installed 10 new IBM Lenovo Guest Desktop Computers with the Windows 8 Operating System and 3 security cable locks to lock them down on the hotel's front lobby desk. All 3 guest computers have paid access and printing services setup on them with a shared internet connection via the hotel's local area network.

Trevauna Work Example - Duluth, MN
~ October 2012 ~

1.3 At this location, I installed an HP LaserJet printer with a USB Head Scanner, 2 Brother Printers, 1 Laser Printer, and a Canon Inkjet Printer for weighing no accounts for printing documents.

2.3 Cable ethernet network access was setup with the cash registers and the Trevauna Headquarters for network access.

3.3 All devices were successful upon completion of this work order. The Trevauna team expressed gratitude for a job well done on my part.

6/17/2011	★★★★★	John was very prompt at fixing my computer and he made sure everything worked properly after. He is very personable and reasonable to work with and his prices are affordable. I tell all my friends to give him a call. By Guest52949, From Superpages.com	Post a reply (public)

Hi John,

Thanks again for the great computer - I truly like it and am very satisfied for your reasonable rates. I am also very happy to know you are a computer expert for hire. Compared to running up to fast big & talking to amateurs & or strangers!

I'm sending you a couple gifts: I'd let you know you'll love plus making return to help I thought you might need. Have a great day. I'll send you a few business cards & I'll refer you to others in need.

10-31-11

PC-REPAIR-TECH.ddns.net

Welcome! Its our priority to provide every customer with excellent prompt quality service.

During our past several years in the IT and Data / Phone Communications Industry, we've always believed in keeping technology costs affordable and not a financial burden for our customers. In today's unpredictable economy, why should someone have to spend lots of money to fix a computer or data / phone communications related issue? Everyone deserves a low-cost solution that works.

We offer an affordable Diagnostic and Estimate Consultation and a low-cost labor rate that's based on the requested work your needing done. So in a typical business or residential setting, the average diagnostic process takes 45 minutes to 1 hour to perform at which an estimate of total costs is written and shared before any further work is completed. *Please see our [Offered Services](#) page for details.

[On-Site & In-Shop Services]

Again, thank you for your interest. We look forward to assisting you with your technology needs. So feel free to reach out with any further questions or to schedule an appointment today! Please include your personal and or business name, your phone number, your email address (*if using our Service Request Form below), your question and any other related detail needs.

Your business is much appreciated!

~John

"PC REPAIR TECH"

HIRED FIELD SERVICE COMPUTER TECH

****For working as a Tech Support Company contracted "PC Repair Field Tech."***

If you have any questions or prospects for us to look at then, please feel free to reach out to us via our Contact Information listed below or, through our **Services Request Form** on this site. Please Include: Your Personal and or, Business Name; Your Best Contact Phone Number; Your Email; Your Question and a Brief Work Description with any other related details you wish to add.

LABOR SERVICE "DIRECT TECH" RATES & TERMS

Hired Field Service Tech

Data/Phone Cable Networking

Data Entry Service

(1.) - For Local (Duluth, MN And Superior, WI Areas) Work Requests Only

**Site work locations must be less than 20 miles from our office. No Out-of-Local Area work requests accepted under this termed section.*

(\$40) Hourly (3x) Hour Minimum Labor Required.

(\$100) Flat Rate (2x) Hour Max Labor Only.

(\$80) Flat Rate (1x) Hour Max Labor Only.

(2.) - For Out-of-Local Area Work Requests Only

**No "Flat Labor Rates" accepted with with non-local-area work requests that are greater than 20 miles from our Duluth, MN office. NOTE: 20+ mile(s) site scheduled visits from our Duluth, MN office are charged an additional Per-Mile Site Location Based Flat Travel Fee.*

(\$60) Hourly (3x) Hour Minimum Labor Required.

"Direct Tech" is a Non-Third Party Straight Pay Based System - ie to directly pay the "PC Repair Field Tech" instead of over a third party Work Payment Platform

****NOTICE* ALL CONTRACTING COMMERCIAL REQUESTING JOB ORDERS ARE SUBJECT TO REVIEW BEFORE A FINAL COUNTER OFFER IS APPLIED. *"Direct Tech" Non-Third Party Straight Pay Based System Minimum \$60/hr Labor with Net 15 Day Pay Terms or less and also, 7 Day or Less Completed Work Order Approval Times will only be accepted. *ALSO, ABSOLUTELY NO BLENDED HOURLY / FLAT RATE PAY OR, NET PAY TERMS THAT ARE GREATER THAN NET 15 (ie NET 21, 30, 45, 60, 90+) WILL BE ACCEPTED. AS SUCH, ALL BLENDED PAY WORK ORDERS AND OR, HAVING HIGH PAY TERMS WILL BE AUTOMATICALLY DECLINED. And For Payment Options, please see our [Accepted Payments](#) page for details.***

Lastly, its understood that some "Large Field Tech Hiring Firms" charge a percentage for an early payout (ie paycheck) fee(s) (ex: 3% of Total Parts plus Labor). Whence, an adequate compensation for the fee(s) will be considered in a "Hired Direct Tech Contract" as well.

NOW HOWEVER, if a contracting company wishes to hire us through a third party payment platform like, **Work Market** or **Field Nation** then, that work platform's fees will be included in a service work order counter offer for the contracting company. Whence in such a case, **Work Market** is our preferred third party payment platform for their fees on techs are much cheaper than **Field Nation's**. Here are two examples below that show their charge-to-tech fees.

(#1) **Work Market** charges Field Tech's a low reasonable 5.0% "Marketplace Access Fee" on top of all their Total Parts and Labor.

The screenshot shows the Work Market app interface. At the top, there's a header with the Work Market logo and navigation icons. Below the header, there's a 'Health Check' section with a blurred ID and a 'Custom fields' section. The main content area is divided into 'Assignment' and 'Messages' tabs. The 'Assignment' tab is active, showing an 'Overview' section with a blurred description of the service call. To the right of the 'Overview' section, there's a 'PAID' section with a red circle around it. This section contains a 'Pricing Details' table with the following items:

Pricing Details	
Hourly rate : \$70.00 /hr (up to 3hr)	
Hours worked : 2 hr 45 min	\$192.50
Marketplace Access Fee (5.0%)	-\$9.62
	\$182.88
Expense Requested	\$55.00
Total	\$237.88

Below the table, there's a green checkmark icon and a message: 'Track your money and calculate how much you're really making with QuickBooks Self-Employed [Start for free](#)'. At the bottom of the 'PAID' section, there's a 'Location Type: Commerical' label and a 'View driving directions' link.

(#2) **Field Nation** charges Field Tech's a high {14.4+%} "Service Charge Fee(s)" on top of all their completed Total Parts and Labor.

***NOTE:** This is the same as what most credit card companies will charge too.

The screenshot shows a web interface for a work order. On the left, there are sections for 'Work Experience', 'Work Order Qualifications', and 'Service Description'. The 'Service Description' section includes a 'PROOF OF INSURANCE REQUIRED' list, a 'Service Description' list, and a 'Dress Code' list. On the right, there is a pricing section with a red box highlighting the following items:

- Labor**: \$170.00
- Rate**: \$85.00
- Hours**: 2 Logged / 2 Max
- Additional Charges**: \$50.00
- Trip Charge**: \$50.00 (You: \$50.00)
- Service Charges**: \$30.58
- Provider Pro Charge**: \$30.58
- Taxes**: \$0.00
- Sum**: \$220.00 (Work Order Cost) + \$30.58 (Total Service Charges) = \$250.58
- Total**: \$189.42

*Field Nation charges Field Techs a high 13.9+% fee on top of all Parts and Labor just so a Field Tech can get paid in a reasonable time. NOTE: This is the same as most credit cards will charge too.

[REQUIRED "CODES OF CONDUCT"]

***{ TO REQUESTING WORK ORDERS: }** ANY CONTRACT HIRING FIRM OR ITS REPRESENTATIVES WHO WILLFULLY ENGAGES IN "BIDDING WARS" (IE UNFAIRLY IGNORING / UNDERCUTTING REASONABLE COUNTER OFFERED PAY REQUESTS FOR LOWER ONES); DOES MASS SPAM / FAKE WORK ORDER ROUTING TO SEVERAL TECHS AT ONE TIME WITH NO DIRECT MESSAGING; OR, PLAYS "WORK SERVICE PLATFORM FAVORITISM" WITH SPECIFIC TECHS OVER OTHERS. PLEASE BE ADVISED, THAT THESE SUCH NEGATIVE BUSINESS PRACTICES ARE NOT ACCEPTABLE. AND AS SUCH, ANY CONTRACT HIRING FIRM AND OR, ITS REPRESENTATIVES WHO PURPOSELY ENGAGES IN THESE NEGATIVE BUSINESS PRACTICES WILL BE AUTOMATICALLY DECLINED.

***{ REGARDING ASSIGNED WORK: }** All assigned PC REPAIR TECHS are and will adhere, to their Contract Hiring Firm's posted-to-assigned-tech work order policies with respect and dignity while on or, off their assigned site locations. To include, reporting any issues that might come up as a result of being on or off a customer's site - ie running late, sickness, family emergencies, other private or public emergencies or any on-site tech related issues as well.

- **(1.)** When an assigned FIELD SERVICE TECH is going on site, it is expected that they will have a clear scope-of-work with all the required documentation from the Contract Hiring Firm. This is in addition to having all the proper required clothing attire, safety gear, work tools and needed materials while on site.
- **(2.)** Its expected that the Contract Hiring Firm Representative(s) will represent themselves in a professional, clear and courteous manor while working with the assigned TECH when they are on or off a customer's site. And at no point, will the Contract Hiring Firm be allowed to push or, add any out-of-scope work unless it is prior agreed upon by the assigned FIELD SERVICE TECH.
- **(3.)** Also at no point, will any Contract Hiring Firm Representative(s) be allowed to mistreat, berate, take advantage of, act pushy and or, be forcibly rude towards an assigned FIELD SERVICE TECH while they are on or off a customer's site. For if this does happen and its reported to PC-REPAIR-TECH.ddns.net then, PC-REPAIR-TECH.ddns.net will see this as a breach of contract with the Contract Hiring Firm and, may also move to cancel the assigned contract. Furthermore, PC-REPAIR-TECH.ddns.net understands that an incomplete work order might not get paid by the Contract Hiring Firm as a result. HOWEVER, PC-REPAIR-TECH.ddns.net does reserve the right to seek legal council and action against a Contract Hiring Firm should it be deemed necessary to pursue. And as such outside of any agreed upon Hiring Firm Contract, all Local City and County / Parish, State / Province and USA Federal Laws and Rules still apply regardless of any assigned work there-in. *See also the USA Antitrust Law PDF Doc below regarding workers, employees, contractors and sub-contractors.

("Antitrust Guidelines for Business Activities Affecting Workers" "January 2025")

***See "pc-repair-tech.net" website under the "Services" menu and "Hired Field Service Tech" page.**

- **(4.)** Regarding Timely Payments. All completed assigned work orders received from Contract Hiring Firms must be Paid Out As Agreed upon in their given and assigned paperwork with the FIELD SERVICE TECH. As such, failure to do so will result in the non-payment issue being escalated accordingly with the proper payment platform support team to include, even possibly being sent to a collections agency and also, to a US Federal and or, State Financial Regulatory Agency for non-payment retrieval.

Finally at PC-REPAIR-TECH.ddns.net, we believe in fair, kind, courteous and clear professionalism and, this is also expected from our Contract Hiring Firms too. **For these values are a right and, not just a privilege towards a chosen few.*

~ Thank you for your consideration. ~
